

# NexO2

Oxygen Precursor & Trace Minerals

# Did you know that the air we breathe today does not contain the level of oxygen we need for peak performance

Because of our modern lifestyles, the pollution we produce, overpopulation, and the decrease in green areas, gradually, we are displacing this vital element in our day-to-day lives.

**YOUTHENEX** has created **NexO2**, a 100% safe and natural supplement that is compatible with any health regimens. Thanks to its formula, **NexO2** helps reduce oxidative stress within the cell while providing increased mineral availability and helps increase cellular repair.

We know that our health is dependent upon environment, stresses, and the quality of food we consume. Most people live a nutrient deficient existence; trading speed and convenience over access of quality nutrition.

Modern fruits and vegetables are generally harvested for appearance not their nutritional value. Most contain only a fraction of the 70 plus trace minerals that our body requires.

NexO2 is one of the most practical, simple, and easy way to cellular oxygenation therapy, NexO2 contains more than 70 trace minerals.

The NexO2 exclusive formula promotes the release of bioavailable nascent oxygen, increasing respiration at the cellular level, reducing free radicals and eliminating toxins.

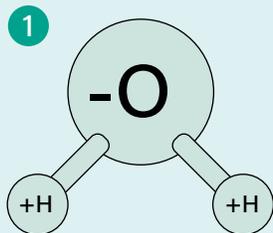

## Benefits of improved oxygenation A feature of regular NexO2 use in a daily routine

- Detoxification.
- Promotes metabolic regulation.
- Assists in weight loss.
- Reduces joint inflammation.
- Mental clarity
- Promotes digestive health.
- Helps eliminate lactic acid.
- Improves physical performance.
- Strengthens the immune system.
- Promotes good blood pressure and improves circulation.
- Promotes anti-aging by reducing oxidative stress.

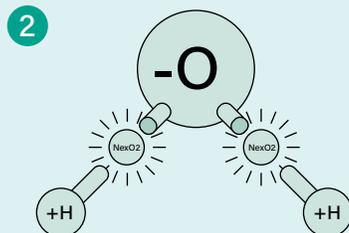

*8 drops in a clean glass of water, three times a day is enough to feel the incredible results that thousands of people around the world are enjoying.*

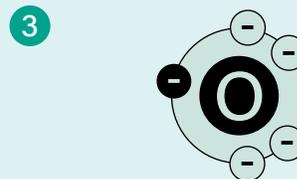

# How does NexO2 work in our body?

Water molecule.

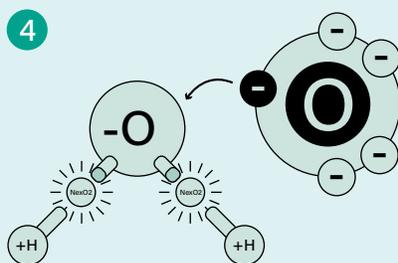

NexO2 comes into contact with the water molecule and weakens the bond with hydrogen.

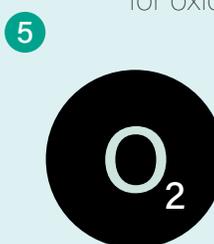

What is a free radical?

They are unstable oxygens that are missing an electron. They can hurt healthy cells and even damage DNA. They're responsible for oxidative stress (aging).

When a free radical makes contact with the weakened water molecule, O2 is created, that is nascent oxygen.

Nascent oxygen.

## Nutritional Components

Trace minerals			Active minerals			Essential aminoacids		
Boro	mg/L	1.678	Calcium	mg/L	154	Alanine	mg/L	1200
Chromium	mg/L	0.116	Carbon	mg/L	66	Glutamic acid	mg/L	2040
Cobalt	mg/L	1.183	Chlorine	mg/L	154	Arginine	mg/L	1100
Copper	mg/L	0.12	Magnesium	mg/L	389	Aspartic	mg/L	124,0
Fluorine	mg/L	0.07	Nitrogen	mg/L	605	Cysteine	mg/L	91.9
Germanium	mg/L	0.36	Phosphorus	mg/L	0.005	Phenylalanine	mg/L	400
Iodine	mg/L	less than 0.005	Potassium	mg/L	8.87	Glycine	mg/L	3200
Iron	mg/L	336	Sodium	mg/L	84.2	Histidine	mg/L	160
Manganese	mg/L	14.7	Sulfate	mg/L	12317	Isoleucine	mg/L	230
Molybdenum	mg/L	0.001				L-Carnitine	mg/L	250
Rubidium	mg/L	0.0444				Lysine	mg/L	880
Selenium	mg/L	0.0077				Methionine	mg/L	190
Silicon	mg/L	97				Proline	mg/L	2,130
Vanadium	mg/L	0.0505				Serine	mg/L	540
Zinc	mg/L	405.5				Threonine	mg/L	90
						Tryptophan	mg/L	120
						Tyrosine	mg/L	200
						Valine	mg/L	600

# How to use.

We recommend using NexO2 in purified water. NexO2 contains a magnetically induced electrical charge. It is recommended to use glass cups and ceramic mugs as, foam disposables and plastic containers can carry their own electric charge which will reduce the effectiveness of NexO2.

We also recommend avoiding close proximity to devices that handle radio frequencies such as: microwaves, radios, cell phones, antennas, cordless phones, Wi-Fi access and other devices that handle wireless signals as this may lower the NexO2 effectiveness.

*NexO2 is a dietary supplement, not a medicine, and is not intended to cure, prevent, or treat any disease. Consult your doctor before consuming it.*

*The use of this product is the sole responsibility of the person who consumes it. The information provided is for informational purposes only and not to replace the advice given by a healthcare professional. The statements contained within this brochure have not been verified or endorsed by the FDA.*

The main elements for life are: water, minerals and **oxygen**. The lack or scarcity of any of these can be very damaging, even fatal. It is said that human beings can survive up to 40 days without food, 7 days without drinking water, but only minutes without **oxygen**.

Today, most people do not lead a very healthy lifestyle, due to stress, poor nutrition, lack of exercise and lack of good oxygenation. The supplement industry has focused on all kinds of compounds in pills, powders, syrups, teas, and has neglected the most important element for good health, **oxygen**.

Of all the elements on our planet, oxygen is the most essential for life. It represents: 20% of our atmosphere, 85% of our oceans, 42% of our vegetables and 65% of our body. 90% of our bodily functions depend on oxygen along with cell regeneration, metabolizing food, eliminating waste through oxidation and our brains need for it to process every bit of information.

Our ability to think, feel, move, eat, speak, and sleep require oxygen. For 150 years oxygen has been used in the medical industry for wound disinfection, detoxification and rehabilitation.

Lack of oxygenation can result in physical and mental fatigue, poor circulation and digestion, hormonal imbalance, and a weakened immune system. Most viruses and bacteria are anaerobic and when found in a body with low oxygen levels, a breeding ground for infection exists.

*It is common for people with moderate levels of toxicity in the body to have a reaction when taking the product, this is known as detoxification.*

*Symptoms or healing crises, depending on the person's toxicity levels: Mild to severe headaches, flu-like symptoms, diarrhea, dizziness, fatigue.*

*Healing crisis are common in some people and symptoms usually disappear two to three days, in such cases it is recommended to start with 3 drops, 3 times a day and gradually increase to the normal dose of 8 drops three times a day.*
