

Youthful | Hydrolyzed Collagen

Youthful Hydrolyzed Collagen

YOUTHFUL is hydrolyzed collagen with added Magnesium, Vitamin C, Acai Berry, Pomegranate and Resveratrol concentrate in a powder that is easy to prepare, delicious and has many benefits.

Collagen is the main protein for keeping our skin elastic, young and flexible. However, after the age of 35, the natural production of collagen decreases considerably, in both men and women, which can lead to both medical and aesthetic problems.

Main enefits

- Helps maintain the appearance of youthful skin by preserving elasticity and moisture.
- Helps maintain healthy bones, cartilage and ligaments, regenerate joints and prevents pain caused by degeneration, rheumatism or arthritis.
- Develops muscle mass as it is a rapidly absorbed protein. Helps lose weight by preventing stretch marks, cellulite and sagging skin.
- Promotes hair retention and helps it stay strong, healthy and shiny.
- Improves cardiovascular health, repairing the walls of blood vessels, strengthening heart tissues and increasing the elasticity of veins and arteries.
- Promotes prompt repair of the liver and intestinal tract from damage caused by indigestion, heart-burn and poor diet.

Those are just some of the benefits of taking collagen!
